A Summary of Student Engagement Results

Student engagement represents two critical features of collegiate quality. The the amount of time and effort students put into their studies and other educationally purposeful activities. The second is how institutional resources, courses, and other learning opportunities facilitate student participation in activities that matter to student learning. NSSE surveys first-year and senior students to assess their levels of engagement and related information about their experience at your institution.

This Snapshotis a concise collection of key findings from your institution's NSSE 2014 administration. We hope this information stimulates discussions about the undergraduate experience. Additional details about these and other results appear in the reports referenced throughout.

Engagement Indicators

Se Т bn **Higher-Order Learning Reflective & Integrative Learning Learning Strategies Quantitative Reasoning** Your students' averagewas significantly higher (p < .05) with an effect size at lea **Collaborative Learning** .3 in magnitude. **Discussions with Diverse Others** No significant difference **Student-Faculty Interaction Effective Teaching Practices Quality of Interactions** Your students' averagewas significantly lower (p < .05) with an effect size at least .3 in magnitude **Supportive Environment**

High-Impact Practices

Due to their positive association with student learning and retention, special undergraduate opportunities are designated "highingact." For more details and statistical comparisons, see your High-Impact Practices eport.
